MESSAGE:

Jeanne:

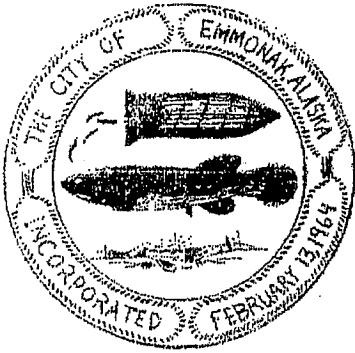

Here is the copy of the approved costs and backup for Martin Moore's travel expenses from EMK to ANC to SEA and back. This trip was required to meet with ASCG on the issues created by Independent Lumber Inc. (ILI) and their lack of providing the signed and sealed construction documents; a material lists for the project and the lack of notification of delivery to the dock in Seattle.

The time required in ANC was to go over the mechanical and electrical design, other design issues and reviewing the material list to ensure that the materials would be sent to EMK. When ILI did not provide the necessary documents for the project, a trip was made to SEA to review the materials delivered to the dock.

If you have questions or comments, please call 907-339-6572 or mobile at 907-227-3023.
Thanks, Jim.

ATTN: Louis Witander

Dear Mr. Witander,

I have advised ASCG consultants to EMK Washeteria Project to ensure the accuracy of the material take off list. Since I had not the privy to check. I have also informed Yuri of Denali Commission regarding my concern. I am now providing you with the discrepancy list from Ed Davis, ASCG who outlines the list of items not included. I would appreciate your promptness and preparedness to meet the Bering Sea Fisheries sailing to EMK, departing May 2003. Please advise ASCG when the material take off list is completed as soon as possible, spring is settling in.

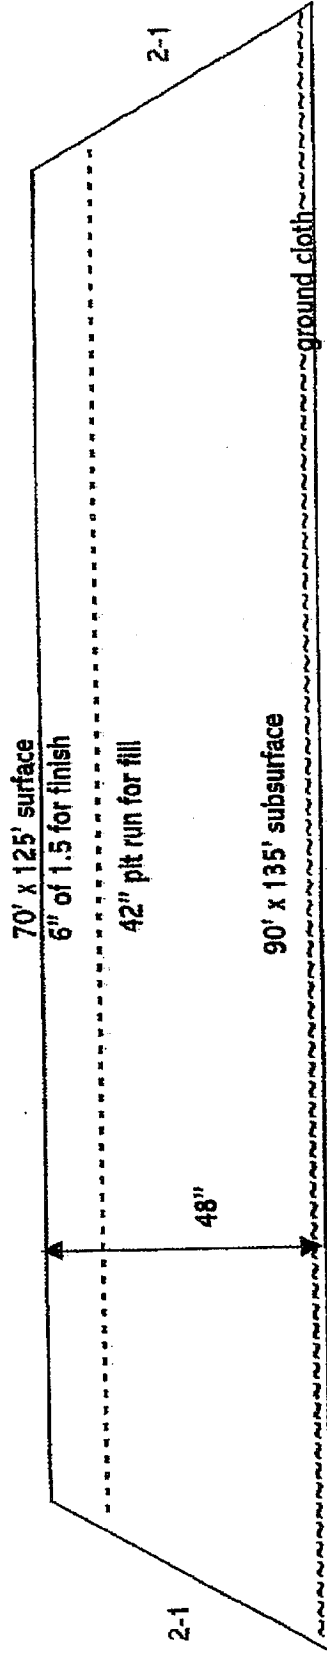

Sincerely,

Martin B. Moore, Sr.
